a) The Cut
Martin Hayles, the Council’s Architect for The Cut project, is continuing negotiations with Island Roads regarding enhancements at The Cut. Costings and timescale will be brought to a future meeting of the Committee for consideration. Island Roads have offered to source alternative street furniture as they may not be able to exactly source the furniture specified on the architect’s drawings.
A local contractor has provided options to attempt to remove the existing mural. Isle Access have confirmed their willingness to attend and provide assistance in the setting up the forum, for a small donation towards their costs. The Chairman circulated a list of the trees that have been provided and planted by the Town Council in the 2017/18 financial year. The trees have been planted in community spaces at Northwood Park, Northwood Recreation Ground and on The Green, Crossfield Avenue. At the previous Projects Committee meeting the creation of a community orchard on a corner of land at The Green, Crossfield Avenue was raised. An estimated budget of £300, which will allow for approximately ten trees and installation of a plaque, was proposed.

Councillors felt that residents on The Green and Crossfield Avenue should be consulted on the community orchard initiative. It was:

**RECOMMENDED**

That Cowes Town Council agrees in principal to the sum of £300 being set aside for the creation of a community orchard, with the cost to be met from the ‘New Projects’ budget.

Red Funnel are doing a number of special deals for ferry travellers during the IW Pride event, which will encourage people into the town. A flotilla off Cowes seafront is being explored by the Sailing and Cruising Association in support of the event. The Town Council could support the event by flying the rainbow Pride flag from the Town Council’s flagpole for the duration of the event. The offer of a complimentary rainbow Pride flag has been made to the Town Council by World Leisurewear.

Councillors Bertie and Fuller left the meeting for the substantive discussion and recommendation.
It was:

Those who attended were thanked for their hard work in very difficult weather conditions. Councillors are encouraged to volunteer to undertake frequent tidying up of the town’s green spaces and beaches, with suitable equipment being available from the Town Council’s office. The Mayor felt that there was a possibility of the Mayor’s allowance being used to sponsor any clean-ups by rewarding volunteers for their efforts and at the same time supporting local businesses. This idea will be considered further.  

**ACTION**  
That all Councillors be invited to periodically clean up their local green spaces or beach areas.

k) **Residential on-street charge points for electric vehicles**  
Research is ongoing to establish the number of electric vehicles in use on the Island to determine if there is a demand for on-street charge points.  

**ACTION**  
Cllr Adams will continue to research this item.

185. **NEW PROJECTS**

a) **Cowes as a pesticide free town**  
The Chairman raised his concerns about the use of pesticides, including Glysohphant, in and around Cowes. He acknowledged that there may be certain situations where these products need to be used, but the way they are used needs to be strictly controlled, with the area cordoned off and warning signs erected while the pesticide is being used and until it is dry. Councillors felt that more research is needed into alternatives to pesticides. It was:  
RECOMMENDED  
That Cowes Town Council adopts a pesticide free approach to work towards a pesticide free environment.
**ACTIONS**

1. The Assistant Town Clerk will write to the grounds maintenance contractors supported by the Town Council to enquire what pesticides they use and their procedure when using these products.
2. The Assistant Town Clerk will write to the IW Council to ask how they control weeds, what pesticides they use, which weeds they consider to be invasive enough to only be treatable by Glysophate or similar, and the working practices they have when using these products.
