Subject: Fwd: Team Building and Alignment Plan

Thank you Richard

RE:Team Building and Alignment Plan

Purpose- To build a cohesive, respectful, and high-functioning council team that operates with a shared purpose, clear communication, and a collective commitment to the town's corporate goals

I have reattached the draft proposal. I have identified potential facilitators for the plan however in order to progress we need to establish and agree with the council members on the final specification.

There are a number of options and phases some of which may not be required. Once we establish what is the 'ask 'we then have to gain engagement and agreement from all.

I can then get firm costs to deliver this piece of work.

I hope this is helpful.

BW

Kay
