

Cowes Neighbourhood Policing Team - Monthly Report

There is ongoing work in the educating of cyclists using the precinct against the road traffic order. This has been seen and noted by members of public who see this activity and engage with officers and have as recent as today asked for guidance on cycling rules.

Beat surgeries are becoming more frequent, coupled with more officers working from Cowes.

There is ongoing partner work with the licenced premises and Pubwatch scheme licenced premises working hard to stop unruly behaviour in the town centre. I am part of the WhatsApp pub group and do see this activity, this is encouraging.

There have been more county wide operations which do involve Cowes, this is Operation Relentless and is the push to locate all outstanding suspects for crimes.

We have Operation sceptre up and coming which relates to knife crime; there will be contact made with shops linked to the selling of knives and inputs at the education establishments.

The above is alongside daily work which is visible patrol, answering of calls to assist and crime enquiries.

Please be aware that I also cover East Cowes, as does PCSO Jones, therefore we split our time accordingly.

PC 3547 Brad Manning
Designated Neighbourhood Officer
Cowes Police Station
